2. Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single site are covered by a single notification, a representative list of such works at that site;
3. Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit WisdomTools to locate the material;
4. Information reasonably sufficient to permit WisdomTools to contact the complaining party, such as an address, telephone number, and, if available, an electronic mail address at which the complaining party may be contacted;
5. A statement that the complaining party has a good-faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and

Upon receipt of such notification, WisdomTools shall promptly investigate the matter, and, if appropriate, remove or disable access to the allegedly infringing material. After WisdomTools removes or disables access to such material, WisdomTools will notify the party who posted the allegedly infringing material of its action. The party may then provide the WisdomTools designated agent proper “counter-notification” stating his or her authority to post the allegedly infringing material, which WisdomTools will forward to the alleged copyright owner.

An effective counter-notification must be sent via surface mail, courier, or fax to the WisdomTools agent designated above. The counter-notification must be in writing and include the following information:
